"I am pleased to announce the sale of one of the two oldest vessels of our fleet, built in 2012, at a very high price, relative to historical averages and to the broker valuation for this vessel at year-end 2025, reflecting the current very strong freight rates and the positive outlook for the product tanker market. Following the completion of this transaction, DIS will own only one non-eco vessel, in line with our strategy of operating a modern, fuel-efficient fleet, with the objective of enhancing both our earnings potential and our environmental footprint."
